A LURE THAT **FISH** TAKE A SHINE TO!

Made by hand in the U.S.A.

FRONT COVER

The A.C. Shiners illustrated on the front cover are balsa construction. From the mighty 00 to the 200 they are very effective fish takers. From their lifelike appearance and flash to their hand tuning these lures can't be beat.

AC SHINER CAPS

- ACSC** Summer cap with mesh back, monogrammed patch, adjustable headband.
- ACWS** Winter cap with enclosed knit back, monogrammed patch.
- ACLC** Ladies cap (visor style with adjustable headband).
- ACP1** A.C. Shiners Patch - Monogrammed
- ACS1** A.C. Shiners Sticker

001 2-1/2" 3/8 oz.
Medium Runner. Floats at rest. Shown in Sunfish.

001S is the same as **001** except a slow sinker.

002 3-1/2" 1/2 oz.
Deep Runner. Slow sinker. Shown in Silver/Blue Back.

002F is the same as **002** except it floats at rest.

202 2" 1/8 oz.
Shallow Runner. Floats at rest. Shown in Sunfish.

203 2" 1/4 oz.
Top Water with propellers front and back. Shown in Silver/Blue Back.

292 3" 1/3 oz.
Medium Runner. Floats at rest. Shown in Silver/Black Back.

302 3" 1/3 oz.
Shallow Runner. Floats at rest. Shown in Silver/Chartreuse Back.

303 3" 1/3 oz.
Shallow Runner. Floats at rest. Shown in Silver/Green Back.

402 4" 1/2 oz.
Shallow Runner. Floats at rest. Shown in Gold/Orange Back.

403 4" 3/5 oz.
Top Water with propeller in back. Shown in Gold/Black Back with Orange Belly.

552 5" 5/8 oz.
Shallow Runner. Floats at rest. Shown in Gold Perch/Orange Belly.

675 6-1/2" 1 oz.
Shallow Runner. Floats at rest. Shown in Silver/Black Back.

CEDAR CONSTRUCTION

The A.C. Shiners have the same lifelike finish and are hand tuned for perfect balance and action.

The Top Water A.C. Shiners consist of the **203** with propellers front and back; the **303** and **403** with a rear propeller; and the innovative **363** with a propeller front and back and a hook in the side, giving it a wounded minnow action when retrieved.

The **001** and **001S** are 3/8 oz. medium runners. The **001** floats at rest; the **001S** is weighted to sink slowly.

The **002** and **002F** are deep runners. The **002F** floats at rest; the **002** sinks slowly. Both weigh about 1/2 oz.

Okeana, OH 45053

AC SHINERS are made and painted by hand in the U.S.A. by skilled American craftsman and women.

Time has proven that wood is the best material for use in the production of artificial fishing lures due to its low specific gravity, and the wood used in the manufacturing of these lures is carefully selected to achieve the highest quality and lure action.

AC SHINERS might be more expensive, but it takes time to handcraft a masterpiece. And each lure is tested in water and adjusted to produce the best action.

Weights and sizes of the AC SHINERS are approximate since they are handmade and the density of the wood used in each lure varies.
